

PC-Mirror Sheet CRYSTALFORM

- ↗ Aircraft grade polycarbonate mirror
- ↗ FAA flammability regulation FAR 25.853 articles (a) & (b)
- ↗ Certified product
- ↗ Flame retardant polycarbonate sheet
- ↗ Proprietary abrasion resistant coating (front surface)
- ↗ Coated aluminium evaporation layer (back surface)
- ↗ Unbreakable

✦ High quality material combination which makes it much safer and lighter than glass mirrors.

Features:

- ↗ Strong protective back-coating adherence
- ↗ Controlled reflection
- ↗ Etching design freedom
- ↗ Scratch resistant surface
- ↗ Lightweight
- ↗ Flame retardant (meets vertical burn requirements)
- ↗ Unbreakable (high impact strength)
- ↗ High reflection

Applications:

- ↗ Aircraft lavatory mirrors
- ↗ Hatrack safety mirrors
- ↗ Seat mirrors
- ↗ Business + First Class mirrors
- ↗ Customized jet mirrors
